Preface

This list includes theses accepted by Canadian universities in the academic year 1975/76.

The list is compiled from information supplied by the libraries and the graduate studies offices of the universities. The cooperation of participating institutions is gratefully acknowledged.

Arrangement

Theses are arranged in broad subject divisions based on the 19th edition of the Dewey Decimal classification. Within each subject, theses are listed by author. In general, each subject includes the subdivisions to be found in the corresponding sections of Dewey. For example, animal anatomy is listed under Zoology, human anatomy under Medicine. The numbers in parentheses accompanying the subjects listed in the table of contents indicate the Dewey classes covered by the headings. *See* references have been added to the table of contents to aid in locating the desired subject e.g. Public administration *see* Political science, International relations, Public administration.

Availability

Theses which include a *series number* in the entry are available from the National Library of Canada. For example:

Black, James Richard
Middle voice in French. M.A.,
Memorial, 1975.
25541 *(series number)*

The thesis may be ordered from the Canadian Theses on Microfiche Service, Collections Development Branch, National Library of Canada, Ottawa, Ontario, Canada K1A 0N4, or borrowed on interlibrary loan. For faster service always quote the thesis series number. Prepayment of all orders is required, with the remittance payable to the Receiver General for Canada. Theses in microfiche format are $9.00 each. Prices are subject to change.

Préface

Cette liste comprend les thèses acceptées par les universités canadiennes pendant l'année universitaire de 1975/76.

Elle a été dressée à partir des renseignements fournis par les bibliothèques et les centres d'études supérieures des universités. La rédactrice remercie les institutions participantes de leur collaboration.

Présentation

Les thèses sont classées par sujets, en grandes divisions, fondées sur la 19e édition de la classification décimale Dewey. Une fois classées par sujets, les thèses sont regroupées alphabétiquement par auteurs. En général, chaque sujet comprend les subdivisions qui se trouvent dans les sections correspondantes de Dewey. Ainsi, l'anatomie animale est classée avec la Zoologie et l'anatomie humaine avec la Médecine. Les numéros entre parenthèses qui accompagnent les sujets mentionnés dans la table des matières, indiquent les classes de Dewey que représentent les rubriques de la liste. La table des matières contient maintenant des renvois "*voir*" pour faciliter le repérage des sujets recherchés. Par exemple, on aura: Administration publique - *voir* Sciences politiques, Relations internationales, Administration publique.

Distribution

Les thèses qui portent un *numéro de série* sur la notice sont disponibles à la Bibliothèque nationale du Canada. Par exemple:

Black, James Richard
Middle voice in French. M.A.,
Memorial, 1975.
25541 *(numéro de série)*

Pour se procurer ces thèses, il suffit de les commander au Service des thèses canadiennes sur microfiches, Direction du développement des collections, Bibliothèque nationale du Canada, Ottawa (Ontario), Canada K1A 0N4 ou les emprunter par l'intermédiaire du service de prêt entre bibliothèques. Le service sera plus rapide si vous prenez soin de préciser le numéro de série de la thèse. Toutes les commandes sont payables à l'avance à l'ordre du Receveur Général du Canada. Le prix est de $9.00 pour une thèse sur microfiche. Les prix sont sujets à variations.
